Q20 - Please give a brief appraisal of the instructor and the course. Fee free to call attention to features that you may or not have liked, such as the instructor's professionalism, organizational skills, lecturing ability, choice of textbooks, tests, and grading policy, etc. Your responses are anonymous.

Please give a brief appraisal of the instructor and the course. Fee free to...

Colt Jensen was an extremely effective teacher. He did a great job at engaging me during his lectures to us in class. He also did a great job of using different types of classroom activities in order to teach us from lectures to topHat questions to group activities. He knew all of the material that he was teaching extremely well and often added in extra factoids for us that we wouldn't have to know for the exam, but that I often found very interesting. Colt was extremely swift at responding to emails which I really appreciated. Also, as a student it was awesome that Colt understood where you were coming from if you voiced a question and he was willing to work with you if you missed a class for an understandable reason.

Overall Mr. Jensen's was a great teacher. Within the short amount of time that we met he was able to convey quality information, and help to really understand the course. I would also like to note that he was actively involved in keeping students well informed through email, and even reached out to me personally on a few occasions to check in. Highly recommend Mr. Jensen for similar courses.

The TA was well organized with the structure of his class. He also cared about the well being of the students and really wanted us to succeed.

Very knowledgeable in the content of the course. Very engaging. Always came prepared and was able to explain content effectively.

The TA was very helpful and forthcoming in his efforts with the students, engaging in unscheduled time after the classroom to clarify any doubts or obstacle faced by the students.

I liked the organization of the class, and the feedback on quizzes was helpful.

My professor, Colt Jensen, was effective at keeping us updated with due dates, upcoming topics, and communicating with us when we needed clarity. One critique that I have is his harshness with participation grades. I did not miss a single class, participated in Tophat, and never missed an assignment and I received a B- in my participation. Mr. Jensen explained to me why this happened, but I still disagree and think it was harsh. Other than that, Mr. Jensen was effective at getting the POLS material across to students.

Professor Jensen always came prepared for class. He understood all the material he was teaching the class to great depth and facilitated discussions for the class. He made sure all his students were clear about any deadline or extra credit assignments. Great teacher overall

Appreciated how he related topics to information from the real world that we might already know about to aid us in learning. Course was very organized and assignments we did were helpful for learning. Colt Jensen did a satisfactory job teaching portions of the course to us.

Mr. Jensen was a great TA who really cared about helping his students. My only complaint is that I feel that there were not enough opportunities to participate in the way that was required to receive a good participation grade. This led to a lot of us receiving not so great grades although we were in class every day. Overall, he was a good TA though.

I liked the instructor's attitude. He was very nice and organized. He always let us know how to get help if we needed it and gave constant reminders about upcoming due dates and assignments.

Mr. Jensen was very organized with the material that he taught to the class each week. He kept the class engaged by teaching the required materials, but also incorporating other interactive forms of learning (simulations).

---

I liked how organized the class and the professor was, there was never any question about what I should be doing or what should be due. Grading policy was clear and lectures were stimulating.

Mr. Jensen is a good teacher, however I did not think his grading on the short papers was fair. They seemed to be a lot harsher than other TA's.

Although I do not like politics, the professor was nice and organized. It was my own fault for not fully seeing how good of a professor they probably were.

I think the overall organization and structure of the course was good, however, I think some of the grading was a bit too harsh.

Organizational Skills were wonderful, Responded to emails promptly and was very accommodating and helpful. Very good at relating the course material to current affairs and always had a plan for class.

This instructor did a really good job! He came to class prepared and was super helpful and engaging with his students

As someone with a disability, mr. Jensen was incredible with my accommodations, and went out of his way to make sure I had everything, needed to be successful

Mr.Jenson was very nice and I have learned a lot from him.

This instructor was well-prepared and taught ideas pretty well. The participation grading and quiz grading was pretty tough though.

This instructor was really nice and organized! I enjoyed his class and he really encouraged lots of participation

Professor Bankert was extremely knowledgeable on the subject matter and organized this course amazingly!
